SB SAT @ AMSAT $ANS-193.01
AMSAT-UK International Space Colloquium - Booking Closes July 16

AMSAT News Service Bulletin 193.01
>From AMSAT HQ SILVER SPRING, MD.
July 12, 2007
To All RADIO AMATEURS
BID: $ANS-193.01

A reminder that bookings for the AMSAT-UK International Space Colloquium must be made before 16th July.

Among the presentations on upcoming satellites will be

ESEO (435 to 2400 MHz) by Graham Shirville, G3VZV

Phase 3e / Phase 5a by AMSAT-DL

Danish AMSAT-OZ Satellite (1260 to 435 MHz) by Ib Christoffersen, OZ1MY

Delphi-C3 Communications Subsystem by Wouter Jan Ubbels, PE4WJ

Eagle Status by Rick Hambly, W2GPS

With the lack of interference free Microwave Allocations very much on everyone's mind the presentation by the RSGB Microwave Manager Murray Niman G6JYB on "The Future of Amateur Satellite Spectrum" will be received with great interest. The presentation will summarise both the challenges and opportunities for Amateur Satellite spectrum and future satellite designers from 50 MHz to beyond 50 GHz.

The RSGB GB4FUN van will be present throughout the event to allow visitors to work the satellites and an RSGB bookstall will be available on Saturday morning.

On Friday there will be a special "Beginners Workshop" to show newcomers how to use the many Amateur Satellites that are available.

The event is open to all Amateurs and SWL's. Either day passes or full packages comprising overnight accommodation and meals at the University are available. An online booking service is available for PayPal, Visa and Master Card payments.
